DETAILED ACTION

This is the first Office Action on the merits responsive to the filing of the pending application.

Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Australia on 16 October 1998. It is noted, however, that applicant has not filed a certified copy of the (PP6536) application as required by 35 U.S.C. 119(b).

Specification

2. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Objections

3. Claim 130 is objected to because of the following informalities:

- Change "wherein each said nozzle" in lines 1 and 2 to --wherein each of said nozzles--.

Appropriate correction is required.

Double Patenting

4. Claims 130-137 of this application conflict with claims 130-137 of both Application Nos. 09/835,457 and 09/835,707. 37 CFR 1.78(b) provides that when two or more applications filed by the same applicant contain conflicting claims, elimination of

Art Unit: 2853

such claims from all but one application may be required in the absence of good and sufficient reason for their retention during pendency in more than one application.

Applicant is required to either cancel the conflicting claims from all but one application or maintain a clear line of demarcation between the applications. See MPEP § 822.

5. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

6. Claims 130-137 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 130-137 of copending Application Nos. 09/835,457 and 09/835,707. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

Conclusion
